

University College Union

Herrick Archives Building S 91

This building was proposed during the planning of the West Campus and was assigned a construction address (999 West Lane Avenue) in May, 1967. It was to be located west of Building 310. It appears as Building 5 on the maps in the December 1967 Master Plan for University College by Kellam and Foley.

This building was not constructed. It is included here solely because it may appear in some documents as a structure about to be built. This note may enable some future researcher to avoid a futile search for the building.

John H. Herrick

December 14, 1977

ADDENDUM NO. 1

Old Campus Planning records listed this proposed structure as Building 311.
